SecureCard™ Tamper Resistant Document Security Card Stock Item #SP5775

Tamper Resistant Card Stock for printing Tickets, Coupons and other Valuable Projects
Heavier Weight
100# Tag Tamper Resistant Card Stock

Security Features include:

Hidden Message Technology

"VOID" Background Technology

When a document printed on SecureCard™ Security Card Stock has been copied the word "VOID" appears on the photocopy in background.

Anti-Copy Watermark™

"Artificial WATERMARK"

An Artificial Watermark (between red lines) is printed on the back of each sheet. This watermark will not appear on copy when the document is duplicated. Hold to light to view watermark to identify original.

Distinctive "BLUE SECURITY background"

Distinctive BLUE Background provides "ERASURE" Protection

Anti-Copy Coin Rub™

"COIN ACTIVATED" SECURITY  BACK PRINT

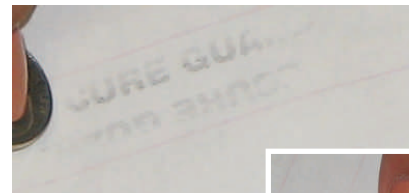

The words " **SECUREGUARD**  "

are hidden on the back of the sheet
Rub a coin over the back of the sheet to activate this feature

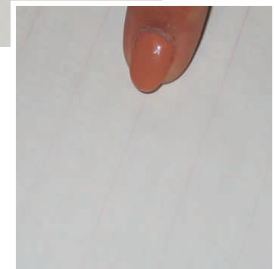

Secure Rub™

"COLOR CHANGE" Security Technology

Pink Diagonal "**SECUREGUARD**" Micro Printed Lines appear on the back. Since Color Change Ink is sensitive to temperature changes, these lines will briefly disappear when touched, rubbed or heated. The Pink Diagonal Lines will reappear when the rubbed area or paper cools.

Anti-Copy Coin Rub™

Secure Rub™

Remember There is nothing in the world that can prevent the information from a document from being copied. The reason you use Document Security Paper is to prevent ACCURATE duplication of a document. This is a method to insure you can easily identify the original from the copy.
